

Scorpion STR

Off-Road

On-Road

High Performance

The Scorpion STR has developed new performance levels which adapt to the modern and sophisticated technical parameters for the new powerful generations of light trucks, SUV and 4x4 vehicles. In the Scorpion STR you find the best tradition for ultra high street performance, with excellent balance for off road conditions. The Scorpion STR delivers a quiet and precise ride, provides superior comfort and ease of handling.

Tread pattern: the symmetric pattern assure comfort ,and also has as a consequence high mileage and uniform wear. Technically design for the highest Original Equipment Standards, and has already approved fitments on the latest light trucks and SUV's in the market.
